

FIZ PatMon

The Patent Monitoring Service

Would you like to monitor your patent portfolio or that of your competitors but fear the time-consuming effort of manual checks?

Take advantage of FIZ PatMon to

- be alerted about opposition, licensing, ownership changes, withdrawal or grant to any patent of interest
- follow your patent application through the grant procedure
- watch your competitors' patents in additional countries in order to assess risks to your business
- monitor changes to the validity of your competitors' patents to initiate business decisions

Relevant changes were detected for your monitored patents.

Monitoring Run Number: #60
Monitoring Run Date: 2019-05-13

Below you find a list of cases with relevant events during the last monitoring cycle. The summarized results include all relevant changes according to your monitoring profile.

Cases in FIZ PatMon can directly be accessed by clicking on the case names.

FIZ PatMon serves all your needs:

- offers reliable worldwide surveillance of patent rights
- allows for monitoring of domestic or international patent families
- is based on FIZ Karlsruhe’s version of INPADOC upgraded with added value and standardizations
- features an intuitive interface that requires no specific search know-how
- facilitates highly customizable alerts – from very broad monitoring to very specific ones
- events of no interest can be excluded to avoid information overload
- clearly arranged, detailed information per patent family with the most recent events displayed in a separate section
- all new legal events and new publications are summarized in an alert e-mail
- links to national registers and the global dossier
- cases can be efficiently managed and shared with colleagues
- various user roles allow to closely adapt FIZ PatMon to your organization’s workflow
- export of all case information to Excel

Access licenses are available on a yearly basis for packages of monitoring cases (patent numbers).
