

JP Appeal data added to INPADOCDB and INPAFAMDB

The coverage of JP appeal data has been significantly enhanced with the addition of 49 legal status event codes. Backfile data for appeal events is available from 2009 onwards with significant data since 2017. Most of new legal status event codes are categorized as ORE (Opposition, Reexamination, Appeal), EXA (Examination, Search Report) or MIS (Miscellaneous or Ambiguous) in field /LSC2.

The appeal codes make aware of proceedings before the boards of appeal. Details can be searched via J-PlatPat (<https://www.j-platpat.inpit.go.jp/>).

Example

The record JP 2018-3635 has several legal events concerning examination and opposition between the publication of the patent application and the granted patent.
